Jill,

Thanks for your two consultation responses on the applications at tomnabat lane in tomintoul.

I've reviewed the local plan and spg. From my reading the earlier consent on the site 14/01037/app which is still able to be implemented should taken into account in the calculations for these applications. Can you confirm that this is the case and if it is update the consultation responses?

I was also wondering if you were looking to recommend conditional control to ensure compliance with the developer contributions. This would allow payment at the detailed stage once Interurban is aware what scheme is to be progressed.

Kind Regards,
