\*\* Replaced by ELMS

Type (e.g. core case, document management, Resource Allocation System (RAS), etc.)	No of users	System Go Live Date
Electronic Scheduling & Monitoring System	65	07/10/2013
Staffplan Roster integrates with the Electronic Call Monitoring (ECM) solution which helps connect the Service to remote workers meaning care delivery can be monitored during visits using the iConnect application lets us provide staff with information on the go. This enables us to receive more accurate data and ensure that care is being provided when scheduled.	2 Licences we can use at anytime but 15 have log on credentials	07/10/2013
Is a Care at Home solution that delivers live schedules and service user information to Care Workers, whilst providing evidence of arrival and departure times to office staff in real time (minimum delay). It's easy to use, secure and most importantly, non-intrusive for service users.	9 of the 15 above have log on credentials through Staffplan Exchange using the 2 licences above.	07/10/2013
Equipment Loan Management System	233	21/05/2018
Social Work Caseload Management and Recording	118 concurrent user licence. 500 users of the system on total	01/04/1998
