Type of Application

What is this application for? Please select one of the following: *

- Application for planning permission (including changes of use and surface mineral working).
- Application for planning permission in principle.
- Further application, (including renewal of planning permission, modification, variation or removal of a planning condition etc)
- Application for Approval of Matters specified in conditions.

Description of Proposal

Please describe the proposal including any change of use: * (Max 500 characters)

To Erect a shed on pads in my back garden to help promote and build up my business and also to comply with Covid 19 social distancing in the shed.

Is this a temporary permission? * Yes No

If a change of use is to be included in the proposal has it already taken place?
(Answer 'No' if there is no change of use.) * Yes No

Has the work already been started and/or completed? *

No Yes – Started Yes - Completed

Please state date of completion, or if not completed, the start date (dd/mm/yyyy): *

Please explain why work has taken place in advance of making this application: * (Max 500 characters)

As the shed wasn't requiring any foundation work carried out, And it doesn't block and views or light to my neighbours and looks into my house, I presumed that because it was in my property and speaking with my surrounding neighbours about the build it was ok.

PLANNING APPLICATION 20/00614/APP Shiva 20 SHORE STREET
LOSSIEMOUTH

Dear Sir or Madam,

Reference the above retrospective planning application, first of all the map that I received does not show the building in the correct position, I have attached a new map with the building marked out in red.

I have also attached a photograph taken from my upstairs window of the building in question and my comments are as follows:

1. Marked on the photo at point 'A' in red this building is less than half a meter from my boundary wall.
2. There is no fire access for such a large building other than through the property owner's house.
3. No drainage was laid as this was built on an existing patio, so where is the water going to go from this large roof?
4. Given that these are enclosed gardens there is bound to be a noise issue.

Yours Sincerely

Summary and Assessment of main issues raised by representations		
Issue: Neighbour Notification map does not show building in correct position Comments (PO): Neighbour notification maps do not show the outline of proposed buildings, only the outline of the existing site for information.		
Issue: Building is less than half a metre from boundary wall Comments (PO): The site plan would show the shed being located on (or very close to) the property boundaries.		
Issue: There is no fire access for the building other than through the existing property. Comments (PO): This is not a planning matter and would relate to building standards only.		
Issue: No drainage Comments: The applicant has confirmed that all rainwater will be directed to a rainwater butt within the site which will be used for watering the garden. Moray Flood Risk Management have raised no objections to this.		
Issue: Potential noise issue due to garden being fully enclosed. Comments: Although the shed is proposed for business use, it will only be used for office space and therefore no issues regarding noise are anticipated.		
Issue: Full protection for all wildlife, flora and fauna, including hedgehogs, nesting birds, bats and butterflies Comments: This is for a shed only and is not anticipated to impact upon any protected species. There are no trees on the site.		
Issue: Moles will have legal status by the end of 2020 Comments: This proposal is for a shed only and is not anticipated to impact upon any protected species.		
Issue: Trees and wildflowers to be planted where possible Comments: This is a proposal for a shed only and therefore there is no requirement under the MLDP 2020 for landscaping or planting of trees. There are no existing trees on the site.		

OBSERVATIONS – ASSESSMENT OF PROPOSAL

Section 25 of the 1997 Act as amended requires applications to be determined in accordance with the development plan i.e. the Adopted Moray Local Development Plan 2015 (MLDP) unless material considerations indicate otherwise. The main planning issues are considered below:

On 3 June 2020 the Moray Council Emergency Cabinet resolved to use the Moray Local Development Plan 2020 (MLDP) as a material consideration for Development Management purposes including the determination of planning applications until such time as the MLDP (modified) 2020 is formally adopted, at which point it will replace the current development plan.

This means that whilst applications will continue to be assessed against the policies and proposals of the Moray Local Development Plan 2015, the terms of the Moray Local Development Plan (Modified Plan) 2020 including all policies and designations will also require to be taken into account when decisions are made on proposals after 15 June 2020. As a material consideration, the Moray Local Development Plan (Modified Plan) 2020 represents a more up-to date version of the Council's

intended planning policies and can be used to both support or reject any application.

Proposal

The application seeks planning permission to erect a shed for business/office use at an existing dwellinghouse.

The shed would measure approx. 6.4m x 5m x 3m (to the highest point of the roof) and would be finished in timber cladding with a mono pitch roof over. It would be located on the eastern, southern and western boundaries of the property, being set back approximately 600mm from any mutual neighbouring boundary.

Work has already commenced to build the shed however has been halted due to an Enforcement case being raised. The application is therefore part-retrospective.

Site

The site is located at Shiva, Shore Street, Lossiemouth. The existing property is a semi-detached single storey on the front and one and a half storey on the back dwellinghouse (erected under planning ref 86/00507/FUL). There is a driveway and small patio area to the front and patio area and garden ground to the rear. The garden ground slopes upwards to the south.

There is a neighbouring (attached) property to the east and further neighbouring properties lie to the west and south of the site. The site is bound by the public road to the north and beyond the public road are a series of industrial buildings.

Policy Assessment

Siting and Design (MLDP (Modified Plan) 2020 Policy DP1- (i) a) & e) MLDP 2015 Policy IMP1)

Policy DP1 (i) a) Development Principles of the MLDP (Modified Plan) 2020 requires that the scale, density and character of a development must be appropriate to the surrounding area, DP1 (i) e) states that proposals must also not adversely impact upon neighbouring properties in terms of privacy, daylight or overbearing loss of amenity. Policy IMP1 Developer Requirements requires development to be sensitively sited and designed, and appropriate to the amenity of the surrounding area and to be acceptable in terms of scale, density and character.

Following assessment the proposed shed on raised garden ground in a restricted site would be of an inappropriate scale due its combined height, width and depth. As such, this would result in a development that would be out of character with its immediate surroundings, and would have an overbearing and detrimental impact, as it removes the majority of the remaining rear garden ground.

The shed is proposed to be erected in the rear garden which slopes upwards to the south. The rear garden has already been developed since the property was built and includes a one and a half storey extension (04/00582/FUL refers) to the rear. Between the extension and the remaining area of garden ground (where the shed is proposed) there are steps leading up to the higher level of garden ground. The shed would therefore sit on a higher level of ground than the existing property and occupy the entirety of any remaining developed rear garden ground. It is also located very close to the property boundary (approx. 600mm on the eastern, southern and western mutual neighbouring boundaries). The proposed shed in these circumstances would therefore result in an overdevelopment of the site and would have an overbearing impact on the existing site and surrounding area.

In terms of orientation and openings on the proposed shed, a 'letterbox' window and single door are proposed on the front (north) elevation facing onto the main property and steps leading up thereto. A second 'letterbox' window is proposed on the side elevation which would face east, directly onto the neighbouring property. A set of two smaller 'letterbox' windows are also proposed on the other side, again facing directly onto the neighbouring property to the west. These 'letterbox' windows are located at head height within the shed and would therefore give a direct view into the neighbouring

property gardens to the east and west giving rise to an unacceptable loss of privacy and amenity to neighbours.

Overall, the development would be inappropriate in terms of its scale and combined proportions on the site, and out of character with adjoining properties contrary to the requirements of policy DP1 i) a & e) of the MLDP (Modified Plan) 2020 and IMP1 of the MLDP 2015.

The shed is proposed to be finished in timber cladding. Although this material would be acceptable for a timber shed, it does not outweigh the aforementioned objections with regard to the size and scale of the proposal. The finish for the roof has not been provided

The shed is proposed for business use. A supporting statement has been provided which outlines that shed will be used as an office space for 3-4 hours a day, 5 days a week. It will only be used by the applicant and customers may attend meeting within the shed from time to time. This level of proposed use is considered in terms of the increase in general activities to be acceptable and would not give rise to any loss of amenity to neighbours. This however would not outweigh the aforementioned objections and therefore refusal is recommended.

Drainage and Flooding, (MLDP (Modified Plan) 2020 policy DP1- iii. and EP12; MLDP 2015 EP5)

The site is located within an area at medium risk of surface water flooding. The applicant has confirmed that any surface water created by the development would be directed to a water butt within the site, to be used for watering flowers. Moray Flood Risk Management have been consulted and raised no objections. The proposal would therefore be in accordance with the requirements of policies DP1,EP12 and EP5.

Access and Parking (MLDP (Modified Plan) 2020 policy DP1 - ii); MLDP 2015 policy T2 and T5)

The site will be accessed via the existing driveway from Shore Street and the parking arrangements will remain unaltered. Moray Council Transportation Section have been consulted and raised no objections subject to a condition relating to the retention of car parking spaces and a series of informatives. The proposal would accord with access and parking requirements of policy DP1-ii, T2 and T5.

Recommendation

Based on the above observations the application is recommended for refusal as it represents an inappropriate form of development for this location which is contrary to the requirements of policy DP1 i) a & e) of the MLDP (Modified Plan) 2020 and IMP1 of the MLDP 2015.

IMPORTANT
YOUR ATTENTION IS DRAWN TO THE REASONS and NOTES BELOW

SCHEDULE OF REASON(S) FOR REFUSAL

By this Notice, Moray Council has REFUSED this proposal. The Council's reason(s) for this decision are as follows: -

The proposed shed is contrary to Moray Local Development Plan (Modified Plan) 2020 policy DP1 (i) a) & e) and Moray Local Development Plan 2015 policy IMP1 for the following reasons:-

1. The proposed shed on raised garden ground in a restricted site would be of an inappropriate scale due to its combined height, width and depth. As such this would result in a development that would be out of character with its immediate surroundings, and would have an overbearing and detrimental impact as it removes the majority of the remaining rear garden ground.
2. The proposed shed contains windows on both side elevations which would face directly onto the neighbouring properties to the immediate east and west of the site. These windows are located at head height and would therefore give a direct view into the neighbouring property gardens giving rise to an unacceptable loss of privacy and overbearing loss of amenity to neighbours and would also be contrary to the requirements of policy DP1 i) e), and IMP1.

**NOTICE OF APPEAL
TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1997**

If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months from the date of this notice. The notice of review should be addressed to The Clerk, Moray Council Local Review Body, Legal and Committee Services, Council Offices, High Street, Elgin IV30 1BX. This form is also available and can be submitted online or downloaded from www.eplanning.scotland.gov.uk

If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land in accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.
