GARDEN GROUND					
Access and Parking					
Are you proposing a new a	Are you proposing a new altered vehicle access to or from a public road? *				
If Yes please describe and you propose to make. You	show on your drawings should also show exist	s the position of a ting footpaths and	any existing. Altere I note if there will	ed or new be any im	access points, highlighting the changes pact on these.

Are you proposing any change to public paths, public rights of way or affecting any public right of access? * Yes 🗵 No  If Yes please show on your drawings the position of any affected areas highlighting the changes you propose to make, including arrangements for continuing or alternative public access.
Water Supply and Drainage Arrangements
Will your proposal require new or altered water supply or drainage arrangements? *
Are you proposing to connect to the public drainage network (eg. to an existing sewer)? *  Yes – connecting to public drainage network  No – proposing to make private drainage arrangements  Not Applicable – only arrangements for water supply required
Do your proposals make provision for sustainable drainage of surface water?? *  (e.g. SUDS arrangements) *
Note:- Please include details of SUDS arrangements on your plans
Selecting 'No' to the above question means that you could be in breach of Environmental legislation.
Are you proposing to connect to the public water supply network? *  Yes  No, using a private water supply  No connection required  If No, using a private water supply, please show on plans the supply and all works needed to provide it (on or off site).
Assessment of Flood Risk
Is the site within an area of known risk of flooding? *
If the site is within an area of known risk of flooding you may need to submit a Flood Risk Assessment before your application can be determined. You may wish to contact your Planning Authority or SEPA for advice on what information may be required.
Do you think your proposal may increase the flood risk elsewhere? *
Trees
Are there any trees on or adjacent to the application site? *
If Yes, please mark on your drawings any trees, known protected trees and their canopy spread close to the proposal site and indicate if any are to be cut back or felled.
All Types of Non Housing Development – Proposed New Floorspace
Does your proposal alter or create non-residential floorspace? *

Schedule	3 Development
	involve a form of development listed in Schedule 3 of the Town and Country ment Management Procedure (Scotland) Regulations 2013 *
	al will additionally have to be advertised in a newspaper circulating in the area of the development. Your planning s on your behalf but will charge you a fee. Please check the planning authority's website for advice on the additional your planning fee.

## Design Statement

**JAN 2021** 

33 Golf Crescent, Hopeman
Authored by: Moray Architectural Services

### **Design Statement**

### **Application**

The application is for the erection of a dwelling house on land adjacent to 33 Golf Crescent, Hopeman. The site is located in a residential area with an establish road network and infrastructure/services. The plot is adjacent to no 33 at the end of a culde -sac with easy vehicle access.

### **Current Use**

The application site is currently used as garden ground as part of no 33 although in general surplus to the requirements of no 33 which has substantial garden policies It is reasonably well screened off from other properties in the area.

Site view from road

The surrounding houses are of a mixed design nature and it is proposed to design a modern style house using sustainable materials and a low carbon heating system using an air source heat pump. Solar panels may also be implemented to comply with current or future SAP requirements.

### Design

The house design will as stated will be of modern design and 1.5/ 1.75 storey high which is reflective of surrounding properties. The house position will b allow No 35 to retain the limited view they have from their patio doors. It should be noted the floor level of the proposed house will be much lower than No 35 which will minimize any potential impact to both No 35 and the surrounding properties

**Typical Modern Designs incorporating sustainable materials** 

No 35 Adjacent to application site showing patio doors and change I level.

View of application site from existing house/road access.

#### Infrastructure

It is intended to connect to existing services for water, drainage and electrical services. Heating will be low carbon air source. Driveway will be free draining material and all surface water will be drained within the site utilizing soakpits.

### **Site Sizes**

The proposed plot will have an area of 0.069 hectare(0.17 acre) but leaves a plot size of 0.07 hectare(0.17 acre) to No 33(existing house). This is above modern development plot sizes and in line with the plot sizes in the adjacent area.

Plot looking North.

Plot at road access

Design Statement 15.01.2012

Moray Council Planning and Development High Street Elgin IV31 1BX

For the attention of Shona Strachan

26.02.2012

#### Proposed Sub Division of Ground at 33 Golf Crescent, Hopeman 21/00044/PPP

Further to recent correspondence I am writing to make the following points with regard to the above application which I believe complies with council policy for the greater part for the following reasons.

- Density I have checked the adjoining houses and the approximated plot sizes are marked on the attached plan. The plot sizes are more or less the same as what is proposed so I would contend it is wrong to suggest the proposal would be out of character in terms of density.
- 2. Plot size- The plot size and existing house are almost the same size meaning the proposal is compliant with the 50% rule and is of course well over the minimum 400m2 plot size. The house design will not exceed one third of the plot size.
- 3. The term backyard development is somewhat spurious in this occasion as the plot is to the side of the existing house and not to the rear.
- 4. Roads have not objected to the access and neither have the majority of the adjoining households. No 35 have objected on the ground of loosing a view from their patio doors. Again I would contend that the design will allow for that view and the impact on No 35 is exaggerated given that the orientation of No 35 is such that there is minimum impact on this property.

We trust you will take these points in to account and we will forward the drainage information when it comes to hand from our engineer.

Signed

Alastair Rennie

## Developer Obligations & Affordable Housing: ASSESSMENT REPORT

Date: 21/01/2021

Reference: 21/00044/PPP

**Description**: Proposed sub division of garden ground to form building plot at 33 Golf Crescent, Hopeman, Elgin, IV30 5TL

Applicant: Mr and Mrs Alan and Laura Ralph

**Agent:** Moray Architectural Services

This assessment has been carried out by Moray Council. For developer obligations, the assessment is carried out in relation to policy PP3 Infrastructure and Services of the adopted Moray Local Development Plan 2020 (MLDP2020) and Supplementary Guidance (SG) on Developer Obligations which was adopted on 30 September 2020. And, for affordable housing, the assessment is carried out in relation to policy DP2 Housing of the MLDP2020. Affordable housing is a policy requirement not a developer obligation however for ease of reference the Affordable Housing contribution is included within this assessment.

The MLDP2020 can be found at <a href="http://www.moray.gov.uk/MLDP2020">www.moray.gov.uk/MLDP2020</a> and the Developer Obligations SG can be found at <a href="http://www.moray.gov.uk/downloads/file1">http://www.moray.gov.uk/downloads/file1</a> <a href="http://www.moray.gov.uk/downloads/file1">34184.pdf</a>

### **Summary of Obligations**

Primary Education	Nil
Secondary Education	Nil
Transport	Nil
Healthcare (Contribution towards extension at Moray Coast Medical Practice)	
Sports and Recreation	Nil
Total Developer Obligations	
Affordable Housing	
TOTAL	

### **Breakdown of Calculation**

Proposals for developer obligations are assessed on the basis of Standard Residential Unit Equivalents (SRUE) which is a 3-bedroomed residential unit. This application is considered to comprise of the following:

3 bed = 1 SRUE

This assessment is therefore based on 1 SRUE.

### **INFRASTRUCTURE**

### Education

### **Primary Education**

The pupils generated by this development are zoned to Hopeman Primary School. The school is currently operating at 52% physical capacity and the additional pupil as a result of this development can be accommodated. As a result, no mitigation is necessary in this instance.

# Contribution towards Primary Education = Nil

### **Secondary Education**

The pupils generated by this development are zoned to Lossiemouth High School. The school is currently operating at 66% capacity and the additional pupil as a result of this development can be accommodated. As a result, no mitigation is necessary in this instance.

# Contribution towards Secondary Education = Nil

### **Transport**

The Moray Council Transportation Services has confirmed that no developer obligations will be sought for this proposal.

### Contributions towards Transport = Nil

### Healthcare

Healthcare Facilities include General Medical Services (GMS), community pharmacies and dental practices. Scottish Health Planning Notes provide national guidance on standards and specification for healthcare facilities. The recommended number of patients is 1500 per General Practitioner (GP) and floorspace requirement per GP is 271m<sup>2</sup>.

Healthcare infrastructure requirements have been calculated with NHS Grampian on the basis of national standards and specifications for healthcare facilities and estimating the likely number of new patients generated by the development (based on the average household size of 2.17 persons -Census 2011).

Moray Coast Medical Practice is the nearest GP Practice within which healthcare facilities can be accessed by the proposed development. NHS Grampian has confirmed that Moray Coast Medical Practice is working beyond design capacity and existing space will be required to be extended.

Contributions are calculated based on a proportional contribution of per SRUE

### Contribution towards Healthcare=

### **Sports and Recreational Facilities**

Sports and Recreation Facilities

Existing sports provision within Hopeman is considered to be adequate to serve the needs of the residents anticipated to be generated by this development. Therefore, in this instance, no contribution will be required.

### Contribution for Sports and Recreation Facilities = Nil

### **AFFORDABLE HOUSING**

The average market value of a serviced plot for 1 Affordable Unit is Contributions are based on 25% of the total number of units proposed in the application:

Therefore, the total contribution towards affordable housing is:

1 proposed unit =

Affordable housing is a policy requirement not a developer obligation and will not be subject to negotiation.

### **TERMS OF ASSESSMENT**

This assessment report is valid for a period of 6 months from the date of issue.

Please note that any subsequent planning applications for this site may require a reassessment to be undertaken on the basis of the policies and rates pertaining at that time.

**PAYMENT OF CONTRIBUTIONS** 

Remittance of financial obligations can be undertaken either through the provision of an upfront payment or by entering into a Section 75 agreement. The provision of an upfront payment will allow a planning consent to be issued promptly. However, where the amount of developer contributions are such that an upfront payment may be considered prohibitive a Section 75 will likely be required. The payment of contributions may be tied into the completion of houses through a Section 75 Agreement or equivalent, to facilitate the delivery of development. Please note that Applicants are liable for both the legal costs of their own Legal Agent fees and Council's legal fees and outlays in the preparation of the document. These costs should be taken into account when considering the options.

INDEXATION

Developer obligations towards Moray Council infrastructure are index linked to the General Building Cost Price Index (BCPI) as published by the Building Cost Information Service (BCIS) of the Royal Institute of Chartered Surveyors (RICS) from Q3, 2017 and obligations towards NHS Grampian infrastructure are index linked to All in Tender

Price Index (TPI) as published by the Royal Institute of Chartered Surveyors (RICS) from Q2, 2017.

PLANNING REF: 21/00044/PPP **OUR REF: DSCAS-0030751-C2T** 

PROPOSAL: Proposed sub division of garden ground to form building plot at

#### Please quote our reference in all future correspondence

#### **Audit of Proposal**

Scottish Water has no objection to this planning application; however, the applicant should be aware that this does not confirm that the proposed development can currently be serviced and would advise the following:

### **Water Capacity Assessment**

Scottish Water has carried out a Capacity review and we can confirm the following:

There is currently sufficient capacity in the GLENLATTERACH Water Treatment Works to service your development. However, please note that further investigations may be required to be carried out once a formal application has been submitted to us.

### **Waste Water Capacity Assessment**

There is currently sufficient capacity for a foul only connection in the MORAY WEST Waste Water Treatment works to service your development. However, please note that further investigations may be required to be carried out once a formal application has been submitted to us.

#### **Please Note**

The applicant should be aware that we are unable to reserve capacity at our water and/or waste water treatment works for their proposed development. Once a formal connection application is submitted to Scottish Water after full planning permission has been granted, we will review the availability of capacity at that time and advise the applicant accordingly.

#### **Surface Water**

For reasons of sustainability and to protect our customers from potential future sewer flooding, Scottish Water will not accept any surface water connections into our combined sewer system.

There may be limited exceptional circumstances where we would allow such a connection for brownfield sites only, however this will require significant justification from the customer taking account of various factors including legal, physical, and technical challenges.

In order to avoid costs and delays where a surface water discharge to our combined sewer system is anticipated, the developer should contact Scottish Water at the earliest opportunity with strong evidence to support the intended drainage plan prior to making a connection request. We will assess this evidence in a robust manner and provide a decision that reflects the best option from environmental and customer perspectives.

#### **General notes:**

- Scottish Water asset plans can be obtained from our appointed asset plan providers:
  - Site Investigation Services (UK) Ltd
  - Tel: 0333 123 1223
  - Email: sw@sisplan.co.uk
  - www.sisplan.co.uk
- Scottish Water's current minimum level of service for water pressure is 1.0 bar or 10m head at the customer's boundary internal outlet. Any property which cannot be adequately serviced from the available pressure may require private pumping arrangements to be installed, subject to compliance with Water Byelaws. If the developer wishes to enquire about Scottish Water's procedure for checking the water pressure in the area, then they should write to the Customer Connections department at the above address.
- If the connection to the public sewer and/or water main requires to be laid through land out-with public ownership, the developer must provide evidence of formal approval from the affected landowner(s) by way of a deed of servitude.
- Scottish Water may only vest new water or waste water infrastructure which is to be laid through land out with public ownership where a Deed of Servitude has been obtained in our favour by the developer.

- The developer should also be aware that Scottish Water requires land title to the area of land where a pumping station and/or SUDS proposed to vest in Scottish Water is constructed.
- Please find information on how to submit application to Scottish Water at our Customer Portal.

#### **Next Steps:**

#### All Proposed Developments

All proposed developments require to submit a Pre-Development Enquiry (PDE) Form to be submitted directly to Scottish Water via our Customer Portal prior to any formal Technical Application being submitted. This will allow us to fully appraise the proposals.

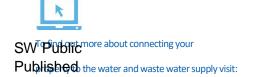

Where it is confirmed through the PDE process that mitigation works are necessary to support a development, the cost of these works is to be met by the developer, which Scottish Water can contribute towards through Reasonable Cost Contribution regulations.

#### **▶** Non Domestic/Commercial Property:

Since the introduction of the Water Services (Scotland) Act 2005 in April 2008 the water industry in Scotland has opened to market competition for non-domestic customers. All Non-domestic Household customers now require a Licensed Provider to act on their behalf for new water and waste water connections. Further details can be obtained at www.scotlandontap.gov.uk

#### **▶** Trade Effluent Discharge from Non Dom Property:

- Certain discharges from non-domestic premises may constitute a trade effluent in terms of the Sewerage (Scotland) Act 1968. Trade effluent arises from activities including; manufacturing, production and engineering; vehicle, plant and equipment washing, waste and leachate management. It covers both large and small premises, including activities such as car washing and launderettes. Activities not covered include hotels, caravan sites or restaurants.
- If you are in any doubt as to whether the discharge from your premises is likely to be trade effluent, please contact us on 0800 778 0778 or email TEQ@scottishwater.co.uk using the subject "Is this Trade Effluent?". Discharges that are deemed to be trade effluent need to apply separately for permission to discharge to the sewerage system. The forms and application guidance notes can be found here.
- Trade effluent must never be discharged into surface water drainage systems as these are solely for draining rainfall run off.
- For food services establishments, Scottish Water recommends a suitably sized grease trap is fitted within the food preparation areas, so the

- development complies with Standard 3.7 a) of the Building Standards Technical Handbook and for best management and housekeeping practices to be followed which prevent food waste, fat oil and grease from being disposed into sinks and drains.
- The Waste (Scotland) Regulations which require all non-rural food businesses, producing more than 50kg of food waste per week, to segregate that waste for separate collection. The regulations also ban the use of food waste disposal units that dispose of food waste to the public sewer. Further information can be found at www.resourceefficientscotland.com

I trust the above is acceptable however if you require any further information regarding this matter please contact me on 0800 389 0379 or via the e-mail address below or at planningconsultations@scottishwater.co.uk.

Yours sincerely,

**Planning Application Team Development Operations Analyst** developmentoperations@scottishwater.co.uk

#### **Scottish Water Disclaimer:**

"It is important to note that the information on any such plan provided on Scottish Water's infrastructure, is for indicative purposes only and its accuracy cannot be relied upon. When the exact location and the nature of the infrastructure on the plan is a material requirement then you should undertake an appropriate site investigation to confirm its actual position in the ground and to determine if it is suitable for its intended purpose. By using the plan you agree that Scottish Water will not be liable for any loss, damage or costs caused by relying upon it or from carrying out any such site investigation."

#### NOTE:

If you do not respond by the response date, it will be assumed that you have no comment to make.

The statutory period allowed for a consultation response is 14 days. Due to scheduling pressures if a definitive response is not received within 21 days this may well cause the two month determination period to be exceeded.

Data Protection - Moray Council is the data controller for this process. Information collected about you on this form will be used to process your Planning Application, and the Council has a duty to process your information fairly. Information we hold must be accurate, up to date, is kept only for as long as is necessary and is otherwise shared only where we are legally obliged to do so. You have a legal right to obtain details of the information that we hold about you.

You can contact our Data Protection Officer at info@moray.gov.uk or 01343 562633 for more information.

Please respond using the attached form:-

#### MORAY COUNCIL

#### PLANNING CONSULTATION RESPONSE

From: Transportation Manager

Planning Application Ref. No: 21/00044/PPP Proposed sub division of garden ground to form building plot at 33 Golf Crescent Hopeman Elgin Moray for Mr and Mrs Alan and Laura Ralph

I have the following comments to make on the application:-Please (a) I OBJECT to the application for the reason(s) as stated below I have NO OBJECTIONS to the application and have no condition(s) and/or (b) comment(s) to make on the proposal (c) I have NO OBJECTIONS to the application subject to condition(s) and/or X comment(s) about the proposal as set out below (d) Further information is required in order to consider the application as set out below

#### Condition(s)

1. No development works shall commence on the dwelling house until a detailed drawing (scale 1:200) has been submitted to and approved in writing by the Council, as Planning Authority in consultation with the Roads Authority confirming the provision of, or location where a future Electric Vehicle (EV) charging unit is to be connected to an appropriate electricity supply, including details (written proposals and/ or plans) to confirm the provision of the necessary cabling, ducting, and consumer units capable of supporting the future charging unit; and thereafter the EV charging infrastructure shall be provided in accordance with the approved drawing and details prior to the first occupation of the dwelling house.

Reason: In the interests of an acceptable form of development and the provision of infrastructure to support the use of low carbon transport, through the provision of details currently lacking.

2. Notwithstanding the submitted details the width of the new vehicular access shall be 3.5m and have a maximum gradient of 1:20 measured for the first 5.0m from the edge of the public carriageway. Drop kerbs shall be provided across the access to the Moray Council specification including provision of backing kerbs installed along the rear of the existing footway (across the full width of the new access to delineate and protect the edge of the footway following the removal of the existing boundary wall). A road opening permit must be obtained from the Roads Authority before carrying out this work.

Reason: To ensure acceptable infrastructure at the development access

3. A turning area shall be provided within the curtilage of the site of the new dwelling to enable vehicles to enter and exit in a forward gear.

Reason: To ensure the provision for vehicles to enter/exit in a forward gear in the interests of the safety and free flow of traffic on the public road

- 4. Parking provision shall be as follows:
  - 2 spaces for a dwelling with two or three bedrooms; or
  - 3 spaces for a dwelling with four bedrooms or more; and.
  - 3 spaces shall be retained for the existing dwelling

The car parking spaces shall be provided within the site prior to the first occupation of the new dwelling house. The parking spaces shall thereafter be retained throughout the lifetime of the development, unless otherwise agreed in writing with the Council as Planning Authority.

Reason: To ensure the permanent availability of the level of parking necessary for residents/visitors/others in the interests of an acceptable development and road safety.

5. No boundary fences, hedges, walls or any other obstruction whatsoever over 1.0m in height (measured from the level of the road) and fronting onto the public road shall be within 2.4m of the edge of the public carriageway.

Reason: To enable drivers of vehicles entering or exiting the site to have a clear view so that they can undertake the manoeuvre safely and with the minimum interference to the safety and free flow of traffic on the public road.

6. No water shall be permitted to drain or loose material be carried onto the public footway/carriageway.

Reason: To ensure the safety and free flow of traffic on the public road and access to the site by minimising the road safety impact from extraneous material and surface water in the vicinity of the new access

#### Further comment(s) to be passed to applicant

Planning consent does not carry with it the right to carry out works within the public road boundary.

The provision of Electric Vehicle (EV) chargers and/or associated infrastructure shall be provided in accordance with Moray Council guidelines. Cabling between charging units and parking spaces must not cross or obstruct the public road including footways. Infrastructure provided to enable EV charging must be retained for this purpose for the lifetime of the development unless otherwise agreed in writing by the Planning Authority

Before starting any work on the existing public road the applicant is obliged to apply for a road opening permit in accordance with Section 56 of the Roads (Scotland) Act 1984. This includes any temporary access joining with the public road. Advice on these matters can be obtained by emailing roadspermits@moray.gov.uk

Public utility apparatus may be affected by this proposal. Contact the appropriate utility service in respect of any necessary utility service alterations which have to be carried out at the expense of the developer.

No building materials/scaffolding/builder's skip shall obstruct the public road (including footpaths) without permission from the Roads Authority.

Address: 33 Golf Crescent Hopeman Elgin Moray IV30 5TL

Proposal: Proposed sub division of garden ground to form building plot at

Case Officer: Shona Strachan

#### **Customer Details**

Name:

Address:

#### **Comment Details**

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:
Comment:Objections-

Have major concerns regarding the entrance to this development, very narrow access with very limited view of road when exiting.

Emergency vehicles I.e fire engine etc would have very restricted access.

Safety of pedestrians when cars are exiting.

Was informed when I purchased my home that there would never be another building there as a sewer pipe runs through the middle of the ground.

Loosing my privacy and my view.

Drive way would run the whole length of my garden and would impact on my privacy.

The road is only a turning area for properties and parking is already limited with the homes that currently use it.

# REPRESENTATIONS Representations Received YES

Total number of representations received TWO

Names/Addresses of parties submitting representations

Name and address details of parties submitting representations withheld in accordance with the General Data Protection Regulations.

Summary and Assessment of main issues raised by representations

**Issue:** Concerns about the site access which is narrow with limited views. The contributors believes this would make the access difficult for emergency services and expresses concerns of the safety of pedestrians.

**Comments (PO):** Subject to conditions the Transportation Section has raised no objection to the proposal on road safety terms.

**Issue:** Was informed when purchased property that there would never be another building there as a sewer pipe runs through the middle of the ground.

Comments (PO): It is unclear who would have made this comment to the contributor, given the nature of the comment it is not something that the Planning Authority can comment further on.

An application for planning permission has been submitted which has been the subject of consultation with Scottish Water. Scottish Water has raised no objection to the proposal with advice to complete their Pre-Development Enquiry (PDE) at the appropriate juncture.

Issue: Loss of privacy and loss of view.

**Comment (PO):** This application seeks planning permission in principle therefore no detailed design information has been submitted. As detailed in the assessment of the proposal the application is recommended for refusal because of the backland nature of the proposal which is unacceptable in character terms

Given the in principle nature of the permission sought, detailed design would be matters specified in conditions, to be assessed as part of a further application. Subject to conditions to ensure, sensitive design a dwelling could be sited on the plot such that it would not significantly adversely impact on neighbouring amenity.

**Issue:** Loss of privacy because of the long drive.

**Comments (PO):** The proposed long drive is uncharacteristic at this location and is a symptomatic of the backland nature of the proposal which is contrary to the provisions of the development plan. The long drive in and of its self is not considered to lead to an unacceptable loss of privacy to neighbouring property.

**Issue:** Generalised non site specific comments on the need to protect wildlife, flora and fauna.

**Comment (PO):** The proposed site is garden ground in an existing settlement boundary. The proposal is not considered to result in adverse impact on wildlife, flora and fauna.

#### **OBSERVATIONS - ASSESSMENT OF PROPOSAL**

#### **Legislative Framework**

Section 25 of the 1997 Act as amended requires applications to be determined in accordance with the development plan i.e. the adopted Moray Local Development Plan 2020 (MLDP) unless material considerations indicate otherwise. The main planning issues are considered below:

#### **Proposal**

This application seeks planning permission in principle for a proposed sub division of garden ground to form building plot at 33 Golf Crescent Hopeman.

As this is an application for planning permission in principle detailed design information has not been provided. The site plan does show an indicative position and footprint for the proposed dwelling and the site access. The design statement submitted as part of the proposal indicates that the proposed dwelling would be 1.5 or 1.75 storey design, deploying sustainable materials and an air source heat pump. As detailed in the drainage assessment, the dwelling would connect to the existing public sewerage located within Golf Crescent with an onsite surface water soakaway.

The site plan is also marked up to show the numeric specifications of Policy DP1 part f.

#### **Site Characteristics**

No 33 is a corner plot in a cul de sac in an existing established modern residential development. There are a mixture of property designs and scales in the vicinity of the site. The parent property is a single storey dwelling and the proposed sub divide garden plot will be located in garden ground to the east of the parent property.

Aside from the parent property which would be located to the west of the proposed site, the proposed plot would have neighbouring boundaries on to Daisy Rock to the north, Lodgeside to the east and on to No 35 Golf Crescent to the south because of the gradient of the land, No 35 sits above proposed plot.

Under the terms of the MLDP 2020 Hopeman falls with the Burghead to Lossiemouth Coast Special Landscape Area.

#### **Policy Assessment**

#### Siting and Design, Impact of the Development (DP1 (i), part f)

Policy DP1, part f) sets out the requirements for sub divide garden plots. Specifying that: proposals do not result in backland development or plots that are subdivided by more than 50% of the original plot. Sub-divided plots must be a minimum of 400m2, excluding access and the built-up area of the application site will not exceed one-third of the total area of the plot and the resultant plot density and layout reflects the character of the surrounding area.

In this case, the proposal is for the sub division of garden ground to create an addition dwelling at this existing cu de sac location, a road end which currently serves four existing properties. The proposed dwelling is to be positioned to the side of the parent property and set significantly further back into the plot than is the established pattern at this location. The site lacks its own roadside frontage and can only be access via an access drive to be created through the parent property's garden. These characteristics are symptomatic of backland development, leading to the inappropriate subdivision of garden ground to form an additional building plot which would be determinate to the character of the area. The proposal therefore fails to comply with the initial requirement of Policy DP1 part f. As demonstrated by the site plan the proposal meets the numeric requirements set out by the policy. However, it is noted here, that whilst the indicative house footprint to plot size ratio reflects the existing plot density found at this location, the presence of an additional dwelling would further increase the density of housing development at this road end location to such an extent that the proposal is considered to be detrimental to the character and appearance of the existing cul de sac.

As this is an application for planning permission in principle detailed design information has not been provided. The site plan does show an indicative position and footprint for the proposed dwelling and the site access. The design statement submitted as part of the proposal indicates that the proposed dwelling would be 1.5 or 1.75 storey design, deploying sustainable materials and an air source heat pump. Should the application go on to be approved, the detailed matters of the, design and materials for the proposed plot would be matters specified in conditions, to be assessed as part of a further application. In this case, given the relationship between the proposed plot and the neighbouring property, consideration could be given to restricting the height of any dwelling to single or 1.5 storey to ensure that the proposed design would not have an overbearing presence to the immediate locality. Landscaping could also be used to provide screening between the properties and in order to reduce any amenity impacts on to the neighbouring property to the south. These design matters are separate from and do not override the policy objection to this proposal based on its inappropriate siting/location.

#### **Special Landscape Area (EP3)**

Under the terms of the MLDP 2020 Hopeman falls with the Burghead to Lossiemouth Coast Special Landscape Area. Policy EP3 part b) applies to urban areas and requires proposal to meet the relevant terms of Policy DP1 and to reflect the traditional settlement character in terms of siting and design. In this instance, the proposal has failed to comply with the terms of Policy DP1 part f and it is noted that the presence of an additional dwelling at the existing cul de sac location is considered to increase the density of housing development to the extent that the proposal is considered to be detrimental to the character and appearance of the area. On this basis, the proposal is considered to be contrary to the terms of Policy EP3 part b).

#### Water and Drainage (DP1 (iii), EP12 and EP13)

Scottish water has confirmed no objection to the proposal and any connections required for drinking and foul connection would be the subject of separate liaison between the applicant and Scottish Water at the appropriate juncture should the application go on to be approved.

The application has been supported by a drainage assessment which has been accepted by Moray Flood Risk Management the surface water drainage proposal is considered acceptable. These matters are separate from and do not override the policy objection to this proposal based on its inappropriate siting/location

#### Access and Parking (DP1 iii)

In order to access the site, a new access drive from the road end would be required creating an access through the garden ground of the parent property. The Transportation Manager, has raised no technical objection to this proposal subject to conditions to ensure safe access and parking for the site. This is a technical assessment of the access arrangement and is separate from and does not override the policy objection to this proposal based on its inappropriate siting/location.

#### **Developer Obligations and Affordable Housing (PP3, DP2)**

A Developer Obligation towards healthcare is sought as part of the application. An affordable housing contribution is also sought. The applicant has confirmed willingness to pay both of these, should the application be approved. The proposal is therefore acceptable under the terms requisite terms of Policies PP3 and DP2. This is separate from the policy objection to the proposal based on its unacceptable siting.

#### **Conclusion and Recommendation**

In this instance, the proposal represents backland development and has failed to comply with the terms of Policy DP1 part f. The presence of an additional dwelling at the existing cul de sac location is considered to increase the density of housing development to the extent that the proposal is considered to be detrimental to the character and appearance of the area.

# MORAY COUNCIL TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1997, as amended

#### REFUSAL OF PLANNING PERMISSION

[Heldon And Laich] Planning Permission in Principle

TO Mr and Mrs Alan and Laura Ralph c/o Moray Architectural Services Camp Cottage Dunbar Street Lossiemouth Moray IV31 6RB

With reference to your application for planning permission in principle under the above mentioned Act, the Council in exercise of their powers under the said Act, have decided to **REFUSE** your application for the following development:-

Proposed sub division of garden ground to form building plot at 33 Golf Crescent Hopeman Elgin Moray

and for the reason(s) set out in the attached schedule.

Date of Notice: 28 April 2021

#### HEAD OF ECONOMIC GROWTH AND DEVELOPMENT

Economy, Environment and Finance Moray Council PO Box 6760 ELGIN Moray IV30 1BX

(Page 1 of 3) Ref: 21/00044/PPP

## IMPORTANT YOUR ATTENTION IS DRAWN TO THE REASONS and NOTES BELOW

#### SCHEDULE OF REASON(S) FOR REFUSAL

By this Notice, the Moray Council has REFUSED this proposal. The Councils reason(s) for this decision are as follows: -

The proposal is contrary to the provisions of the Moray Local Development Plan 2020 because: The proposed dwelling is to be positioned to the side of the parent property and set significantly further back into the plot than is the established pattern at this location. The site lacks its own roadside frontage and can only be access via an access drive to be created through the parent property's garden. These characteristics are symptomatic of backland development, leading to the inappropriate subdivision of garden ground to form an additional building plot. It is further noted that the presence of an additional dwelling at the existing cul de sac location is considered to increase the density of housing development to the extent that the proposal is considered to be detrimental to the character and appearance of the area. On this basis, the proposal is considered to be contrary to the terms Policies DP1 (i), part f and Policy EP3 part b).

# NOTICE OF APPEAL TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1997

If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months from the date of this notice. The notice of review should be addressed to The Clerk, Moray Council Local Review Body, Legal and Committee Services, Council Offices, High Street, Elgin IV30 1BX. This form is also available and can be submitted online or downloaded from <a href="https://www.eplanning.scot/eplanningClient">www.eplanning.scot/eplanningClient</a>

If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land in accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.
