Recycling Materials (cans/plastics/paper/glass)	6520.92
Domestic Glass	397.89
Domestic Cans & Plastics (Communal/Recycling Points)	133.89
Domestic Paper & Card (Recycling Points)	153.14

Total above weight is 30,316.59, of which 16,487.6 is recycling materials, giving a recycling percentage of 54.38%

Notes

Mixed municipal waste collected every 3 weeks, no disruption due to Covid.

Recycling collected every 2 weeks until advent of Covid, then changed to every 3 weeks from June onwards. Service was also suspended for a 6 week period April/May 2020.

Green and food collected every 2 weeks, no disruption due to Covid.

Recycling materials collected in 3 pod vehicles, hence overall tonnage in the table above is for three different materials. This is then partially sorted into paper/card/glass/cans & plastic bottles, hence final tonnages in the table below do not equal the totals of the two tables above.

We also have commercial recycling and general waste collections and deposits at our Waste Transfer Station which are also included within the total tonnages below.

Tonnage of Mixed Municipal Waste into Dallachy land fill site is for waste only, and doesn't include soils used for daily cover.

Destinations

Material	Destinations	Total Tonnage Sent
Green & Food Green Waste	Keenans Recycling, New Deer, Aberdeenshire, AB53 6YH	9281.76 1234.68
