Are you ready to go faster?

Find out how you could benefit from an R100 voucher subsidy like this beneficiary of the R100 Scottish Broadband Voucher Scheme.

R100 hitting the right notes

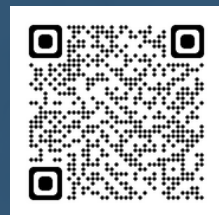

“ Having slower speeds meant that I was always ‘behind’ during Zoom calls. This was noticeable during my online choir – from my perspective the conductor was about four beats slower than her singing.

I'd recommend the R100 Scottish Broadband Voucher Scheme as so many things are now done online, such as interacting with local and central government, work colleagues and friends. Online activities are less stressful with higher speeds.
