Who can apply?

Moray Council is working to improve digital connectivity in our area, the project is funded by the UK Government through the UK Shared Prosperity Fund.

If your property is not covered by government broadband contracts, the SBVS can help cover the costs to connect your property to superfast broadband.

We can help you find a supplier and get connected.

Your property may be eligible for a voucher if....

- Your connection speed is less than 30Mbps.
- There are no plans to build a superfast connection in your area.

Check your property's eligibility at:
