Parent/Carer permission letter

Dear Parent/Carer

Internet and Email Permission Form

As part of the school's Information Communications Technology provision we offer pupils filtered access to the Internet and a filtered email service. Before being allowed to use the Internet, all pupils must obtain your permission to do so. We ask that you sign and return the enclosed form as evidence of your approval. We also ask pupils to sign the form as evidence of their acceptance of the school rules and Moray Council Guidelines on this matter. This action is designed to be a safeguard for all pupils.

Families should be advised that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate or potentially offensive. Our computer network has a sophisticated Internet filtering system called Smoothwall. Smoothwall can also provide reports of the sites accessed by individuals.

Whilst our aim for Internet use is to further educational goals and objectives, pupils may find ways to access other materials as well. We believe that the benefits to pupils from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Parents/Carers of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. During school, teachers will guide pupils toward appropriate materials. However, not all Internet access is supervised, and filtering systems do not offer 100% protection, accordingly there is the need for an element of personal responsibility.

We would be grateful if you could read the enclosed Moray Council Guidelines for Pupil Use of The Internet and Email, then complete the permission form which follows.

Yours sincerely

Moray Council – Guidelines for pupil use of Internet and email

Pupils are responsible for good behaviour on the Internet just as they are in a classroom or a school corridor. General school rules apply.

Moray school networks are provided for pupils to undertake school related work including research and communication with others. For Internet access parent/carer permission is required. During school, teachers will guide pupils toward appropriate materials. However, not all Internet access is supervised and accordingly there is the need for an element for personal responsibility.

Individual users of the Internet are responsible for their behaviour and communications over the network. Email use will only be permitted during designated times, or at the specific request of the class teacher. It is presumed that users will comply with school standards and will honour the agreements they have signed.

Designated members of staff may on occasion access student files, where circumstances suggest that files may contain inappropriate content, in order to fulfil the school's duty of care.

When students are using ICT equipment and services at school, the following are not permitted when using the Internet or email:-

1. Searching, sending or displaying offensive messages, images or videos
2. Searching for inappropriate images or content
3. Sending messages likely to cause offence or using obscene, foul, racist or sexist language
4. Harassing, intimidating, bullying, insulting or attacking others
5. Sending unsolicited, spam or nuisance emails
6. Damaging computers, computer systems or computer networks
7. Violating copyright laws
8. Copying content found online without crediting the source
9. Using others' passwords
10. Trespassing in others' folders, work or files
11. Intentionally wasting limited resources
12. Downloading or uploading non approved software, games or screensavers
13. Trying to find ways to bypass the Council's security systems, virus protection systems and filtering tools
14. Posting information that identifies a person
15. Agreeing to meet in real life an unknown person who was met online

Please note:

1. Additional disciplinary action may be added in line with existing practice on inappropriate language or behaviour
2. When applicable, police or local authorities may be involved
3. Violations of the above rules will result in a temporary or permanent ban on Internet/email use
