09 December 2024

Dear 

Thank you for your representation to the Statutory Consultation in respect of the proposed change of use of the common good asset.

As outlined in the consultation document, if the proposal is taken forward, all of the well established trees will be retained or replaced as required, there is no indication within the common good proposal that the trees behind the veteran's cottages that you have mentioned should be felled.

The consultation relates specifically to the proposed short term disposal and change of use of Common Good Land and is not seeking views regarding the preferred site for the new Forres Academy, however, the detail design for the proposed development is ongoing and as such many of the issues you have raised within your correspondence will be considered during this process.

We appreciate your concerns all of which will require to be considered as part of any planning application that would require to be submitted which would take account of the design, layout, noise and transport assessment. This will identify any areas where intervention/ mitigation is necessary as a result of the development. The public will have the opportunity during this process to engage in the design and feedback any concerns that they may have.

Yours sincerely

Learning Estate Team
