Service Specification

For the last 10 years this building has been used by a privately run out of school care provider. The previous board took the decision to close the business due to other opportunities that had arisen that took precedence. However, the aspiration is to replicate the service offer to support local school age children and their families.

The building would be ideal for children aged 5-12 years with secure access to the outdoors and within close proximity to the local Primary School. The new provision would ideally offer breakfast club, after school club and a holiday provision to meet the needs of the local community, who are predominantly military families.

The previous organisation had up to 30 children registered and generally had up to 20 in any one day. As previously mentioned the hope would be to continue to function at these capacities however this will be dependent on Care Inspectorate agreement. It would be the responsibility of the new service provider to acquire all service specific conditions to support full Care Inspectorate registration.
