9	Glossary	13

1. Introduction and Overview

Purpose

- 1.1. The Housing Land Audit (HLA) provides an overview of Moray's housing land supply as at 31 March 2025. It is used to monitor and support housing delivery and provides a comparison of supply with the Local Housing Land Requirement (LHLR) of 5,732 units¹.
- 1.2. National Planning Framework 4 (NPF4) was published in February 2023 and introduces significant changes to the development planning system across Scotland. NPF4 Policy 16: Quality Homes sets out that a local development plan (LDP) should identify a housing target for the area it covers, in the form of a LHLR. The LHLR represents how much land is required and is expected to exceed the 10-year Minimum All-Tenure Housing Land Requirement (MATHLR). NPF4 sets the MATHLR as 3,450 units for Moray.
- 1.3. The HLA identifies and provides a programme of expected housing delivery over an initial 10-year period and the years thereafter. The audit also examines past and future predicted trends in housing land supply and identifies any action required to address issues arising. This should be read in conjunction with the Moray Housing Delivery Pipeline.
- 1.4. HLA Guidance was published by the Scottish Government on 20 January 2025 to support a consistent approach to the method and presentation of HLA. The HLA 2024/25 implemented a number of these changes based on the Scottish Government HLA Feedback Paper from August 2023. Moray Council moved to a financial year audit in 2024, therefore completions for 2023/24 also include calendar months January to March 2023 (identified by an asterisk). The key change made this year has been modifications to the definitions for the land supply categories (see Paragraph 1.10).
- 1.5. The HLA is made up of two parts: the HLA Report, which provides an analysis of the housing land supply and the HLA Schedule, which collates detailed information for each site. A spreadsheet of the HLA Schedule is available on request.

Methodology and Consultation

- 1.6. The audit has been prepared by Moray Council using details of all relevant development sites within the Moray Local Development Plan (MLDP) 2020 and other (windfall) sites with planning consent for residential use.
- 1.7. Completions have been recorded through contact with developers, agents and landowners, site visits and analysis of building warrant completion certificates. Constraints have been identified through the LDP process and discussions with statutory consultees.
- 1.8. Details of sites with a capacity of 4 or more houses are recorded and an assessment made of potential future development rates, informed by developers, agents and landowners. This takes account of planning status, infrastructure constraints, building capacity, market demand and financial plans.

¹ Moray Local Development Plan 2027: Evidence Report (April 2024)

- 1.9. A draft HLA was made available on the Moray Council website for consultation and notification was sent to Homes for Scotland (HfS), Cairngorms National Park Authority (CNPA), Scottish Water, BT, Scottish and Southern Electricity Networks (SSEN) as well as developers, agents and landowners. Responses to the draft HLA were considered by Moray Council in December 2025.

Land Supply Definitions

- 1.10. There are three categories of land supply identified within the audit:

Deliverable	Sites which are free from constraints and can be realistically programmed in the short/medium/long term. These sites contribute towards meeting the LHLR.
Deliverable with Constraints	Sites with one or more constraints that may be considered deliverable if action to overcome the constraint can be identified or if they are constrained only by a lack of market demand. These sites contribute towards meeting the LHLR.
Constrained	Sites with constraints which, at the base date of the audit, have no known prospect of being resolved. These sites do not contribute towards meeting the LHLR.

- 1.11 Deliverability factors (constraints) that could constrain the deliverability of the site include:

- Land use status.
- Ownership (includes programming/LONGs).
- Physical conditions (e.g. slope, aspect, flood risk, contamination and pipelines).
- Infrastructure (as defined under 'Infrastructure first' in NPF4²).
- Financial (e.g. construction costs, deficit funding and marketability).

² NPF4 Annex F – Glossary of definitions

2. Completions

2.1. Table 1 identifies previous completion rates and compares actual completions to the previous year's projected programming.

	2015	2016	2017	2018	2019	2020	2021	2022	23/24*	24/25
Programmed	348	365	412	337	304	303	416	500	464	358
Actual	337	335	350	358	414	231	398	418	459	305
Difference (%)	-3.2	-8.2	-15	+6.2	+36.1	-23.4	-4.3	-16.4	-1.08	-14.8

Table 1: Programmed and Actual Housing Completions

2.2 In 2024/25, there were 305 actual completions compared to the projected 358 units. This is a difference of 14.8%. This was primarily due to projected completions in Buckie not materialising, with one of the housebuilders having liquidated.

2.3 Table 2 identifies projected completion rates for the initial ten-year deliverable housing land period. These are largely based upon returns from housebuilders and landowners. As part of School Roll Forecasting, information is also provided to Education Services which includes a reduced ratio applied to projections within the Housing Land Audit for Elgin and Forres. This is due to historical accuracies demonstrating that projections can be unrealistic, particularly after Year 3, compared to actual completions (as demonstrated in Table 1 above).

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33/34	34/35
403	447	387	546	492	555	509	511	486	471

Table 2: Projected completion rates

3. Housing Land Supply (as at 31 March 2025)

Total Site Capacity

3.1. Previously referred to as 'Established Land Supply', the total site capacity is the overall number of units still to be built on each site as at the audit base date of 31 March 2025. The number of units within each of the land supply categories is summarised in Table 3a and a comparison of the total site capacity with previous years is shown in Table 3b.

Site Capacity Status	Units
Deliverable	4,935
Deliverable with Constraints	909
Total Deliverable	5,844
Constrained	6,365
Total	12,209

Table 3a: Total Site Capacity as at 31 March 2025

2021	2022	2023	2024/25	2025/26
12,346	12,192	11,770	12,461	12,209

Table 3b: Comparison of Total Site Capacity

3.2 The Total Site Capacity in 2025/26 is 12,209 units. This includes extensive areas of LONG-term land which function as a reserve and can be released should a shortfall be projected.

Total Deliverable Site Capacity

3.3 Previously referred to as 'Effective Land Supply', the Total Deliverable Site Capacity is the total capacity of 'Deliverable' and 'Deliverable with Constraints' sites. In 2025/26, the total deliverable site capacity is 5,844 units and is shown in Table 4.

2021	2022	2023	2024/25	2025/26
5,508	5,365	5,022	5,303	5,844

Table 4: Comparison of Total Deliverable Site Capacity (previously Effective Land Supply)

Deliverable Site Capacity

3.4 The Deliverable Site Capacity in 2025/26 is 4,935 units and the 10-year programming of delivery for the MLDP area is shown in Table 5.

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33/34	34/35
403	447	352	402	366	450	362	343	326	286

Table 5: Deliverable Site Capacity programmed rates

Deliverable with Constraints Site Capacity

3.5 The Deliverable with Constraints Site Capacity at 2025/26 is 909 units. The 10-year programming of delivery for the MLDP area is showing Table 6.

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33/34	34/35
0	0	17	67	80	102	137	106	46	69

Table 6: Deliverable with Constraints Site Capacity programmed rates

Constrained Site Capacity

3.6 The Constrained Site Capacity is shown in Table 7a.

2021	2022	2023	2024/25	2025/26
6,838	6,827	6,748	7,158	6,365

Table 7a: Comparison of Constrained Site Capacity

3.7 A total of 6,365 units is constrained in 2025/26 - a reduction from 7,158 in 2024/25 which reflects the continued more proactive approach being taken to overcome constraints and explore ways of unlocking sites. Table 7b below summarises the constrained sites and the nature of the constraint. The table shows that the majority of these sites are constrained through ownership. LONG sites can only be considered deliverable when the required triggers for release of LONG sites have been met and the site is free of, or there is a commitment to overcoming, the constraints listed in paragraph 1.11.

Constraint	No. of Units	No. of Sites
Financial	240	4
Infrastructure	193	8
Ownership	1,905	17
Ownership (Programming (LONG))	3,825	8
Physical Conditions	202	6
Total	6,365	43

Table 7b: Analysis of Constraints

3.8 Land supply (site capacity) which is only constrained by marketability are now categorised as Deliverable with Constraints and are no longer included in the Constrained Site Capacity.

4. Small Sites

- 4.1. In addition to sites with consents for a capacity of 4 units and over outwith settlements (Rest of Moray (ROM)), there are a number of consents granted for sites (both urban and rural) with a capacity of 1 to 3 units which cumulatively make a significant contribution to the housing land supply. Table 8 identifies previous completion rates.

2020	2021	2022	2023/24*	2024/25
N/A	50	70	73	60

Table 8: Small Sites completion rates

- 4.2. A programmed supply for small housing sites is provided in this audit based on the average of the last 5 years of small site completions and rural communities' contribution agreed with Homes for Scotland. This will be monitored and reviewed on an annual basis.

5. Brownfield Sites

- 5.1. NPF4 Policy 9: Brownfield, vacant and derelict land and empty buildings aims to encourage, promote and facilitate the reuse of brownfield, vacant and derelict land and empty buildings and to help reduce the need for greenfield development. Tables 9a and b identifies previous and projected completion rates on brownfield sites.

	2020	2021	2022	2023/24*	2024/25
Brownfield sites completions	15	55	10	18	4
Percentage of total completions 2020 - 2024/25			5.6%		

Table 9a: Brownfield sites completion rates

	2025/26	2026/27	2027/28	2028/29	2029/30
Brownfield sites projected completions	26	57	22	28	37
Percentage of total projected completions 2025-2030			7.5%		

Table 9b: Brownfield sites projected completion rates

- 5.2. As set out in the MLDP 2027 Evidence Report, Moray Council have proposed targets of 10% and 5% of housing completions over the next 10 years for brownfield sites and within town centres, respectively. Whilst these targets are considered to be ambitious, it is recognised that this will be dependent upon availability of staff and financial resources to tackle the complexity of brownfield site redevelopment.

6. Windfall Sites

- 6.1. A windfall site is a site not specifically allocated for development in the LDP but which becomes available for development or is granted planning permission during the lifetime of the Plan. Windfall completions can make a significant contribution to the land supply.
- 6.2. Tables 10a and b set out the previous and projected completion rates on windfall sites.

2020	2021	2022	2023/24*	2024/25
22	47	14	14	13

Table 10a: Windfall site completion rates

2025/26	2026/27	2027/28	2028/29	2029/30
39	59	15	20	23

Table 10b: Windfall site projected completion rates

- 6.3 Windfall sites continue to demonstrate the historical trend of varied annual completions and projections.

7. Long-Term Housing Designation

- 7.1. Long-term (LONG) designations have been identified to set out the direction of growth and to assist in the forward planning of infrastructure and landscape enhancement/mitigation. The Council will evaluate the need for early release of long-term housing land through the annual Housing Land Audit process and monitoring report.
- 7.2. The release of LONG-term designations is controlled through the Policy DP3 LONG Term Land Reserves of the MLDP 2020. The triggers are a shortfall in the 10-year total deliverable site capacity (housing land supply) or shortfall in projected delivery of housing land is identified in the annual Housing Land Audits, which cannot be met by:-
1. Windfall provision assuming previous trends;
 2. sites which are likely to become available for development to meet the shortfall in the relevant timeframe; or
 3. Where the release of LONG-term land is required to deliver key objectives of the Council or its Community Planning Partners set out in the Local Outcome Improvement Plan, or to meet significant increased demand for housing arising from personnel deployment at RAF Lossiemouth or Kinloss Barracks.

In these circumstances, an appropriate release of LONG-term land may be recommended where:-

- This can be achieved without compromising delivery of a master-planned approach and where appropriate access, infrastructure and landscaping setting can be secured.
 - The site is demonstrated to be effective within the next five years.
 - Any site specific triggers are fully complied with.
- 7.3. The amount of land to be released will be dependent upon an assessment of what other sites will become effective to ensure a continuous 5-year deliverable site capacity. A shortfall of deliverable housing land in one of the 8 main towns should be met through a LONG-term release in the same town.
- 7.4. Where a decision is made to release LONG term land and there is more than one LONG term site is that settlement, an assessment will be made as to which site is considered the most suitable based on considerations such as infrastructure, landscaping, settlement pattern and effectiveness.
- 7.5. Outwith the eight main towns, LONG term sites will only be considered for early release where the residential land designations are clearly demonstrated to be constrained for the entire plan period and that constraint cannot be overcome.

Settlement	Site	Comment/Triggers	Recommendation
Alves	North	No deliverable site capacity.	No requirement to release.
Buckie	South West	Total deliverable site capacity of 761 units in LHMA, projected 10-year completions of 650 units.	Part of the site received planning permission in 2024/25. No requirement to release remainder of site (see para 8.3).
Burghead	Clarkly Hill	Total deliverable site capacity of 2,766 units in LHMA, projected 10-year completions of 84 units.	No requirement to release.
Elgin	North East	Total deliverable site capacity of 2,766 units in LHMA, projected 10-year completions of 1,691 units.	No requirement to release.
Elgin	South	Total deliverable site capacity of 2,766 units in LHMA, projected 10-year completions of 1,691 units.	Amendment to Elgin South phasing approved in 2021. No requirement to release.
Fochabers	Ordiquish Road East	Total deliverable site capacity of 2,205 units in LHMA, projected 10-year completions of 78 units.	No requirement to release.
Forres	Lochyhill	Total deliverable site capacity of 1,135 units in LHMA, projected 10-year completions of 563 units.	No requirement to release.
Keith	Nursery Field	Total deliverable site capacity of 210 units in LHMA, projected 10-year completions of 166 units.	Site released in 2023.
Urquhart	Meft Road	Total deliverable site capacity of 2,205 units in LHMA, projected 10-year completions of 24 units.	No requirement to release.

Table 11: LONG Term Sites

8. Housing Land Requirement & Total Deliverable Site Capacity

8.1. The Council's HNDA 2017 has informed the housing land supply and housing completions targets set out in the MLDP2020. These have been updated in the Evidence Report submitted to the Scottish Government as part of the preparation of the MLDP 2027 and are based upon the HNDA 2023, which has been signed off as robust and credible by the Scottish Government's Centre for Housing Market Analysis. The key targets reflect the MATHLR set out in NPF4 and are:

- Annual housing completion target (HNDA Growth scenario) - 440 units
- Annual total deliverable site capacity target - 500 units

8.2. Using these figures gives a 10-year completion target of 4,400 units and a 10-year total deliverable site capacity target of 5,000 units.

	Site Capacity	No. of years supply
Total	12,209	24.4
Total Deliverable	5,844	11.6
Constrained	6,365	12.7

Table 12a: Site Capacity and Supply

LHMA	10 year total deliverable site capacity target (10 x 500)	10 year total deliverable site capacity 2025-2034	10 year completion target (10 x 440)	10 year projected completions	Comments
Buckie	727	893	4,400	1,005	Deficit of deliverable site capacity.
Elgin	2,728	2,898		2,325	Surplus of deliverable site capacity.
Forres	741	1,267		757	Surplus of deliverable site capacity.
Keith	427	342		286	Surplus of deliverable site capacity.
Speyside	377	444		434	Surplus of deliverable site capacity.
Total	5,000	5,844		4,807	Surplus of deliverable site capacity.

Table 12b: Deliverable Site Capacity and completion targets by LHMA.

- 8.3 Whilst it appears there is a deficit of deliverable site capacity in the Buckie HMA, projections include sites which are currently constrained. The increase in projected completions reflects the focus of projects such as the Growth Deal Housing Mix in overcoming constrained development in the coastal settlements.
- 8.4 The totals of the total deliverable, constrained and total site capacities are set out in Table 12c below.

	2020	2021	2022	2023	2024/25	2025/26
Total Deliverable	5,638	5,508	5,365	5,022	5,303	5,844
Constrained	6,890	6,838	6,827	6,748	7,158	6,365
Total Site Capacity	12,528	12,346	12,192	11,770	12,461	12,209

Table 12c: Moray Total Site Capacity 2025/26

9. Glossary

Constrained site

Sites with constraints which, at the base date of the audit, have no known prospect of being resolved. These sites do not contribute towards meeting the LHLR.

Deliverable site

Sites which are free from constraints and can be realistically programmed in the short/medium/long term. These sites contribute towards meeting the LHLR.

Deliverable with constraints site

Sites with one or more constraints that may be considered deliverable if action to overcome the constraint can be identified or if they are constrained only by a lack of market demand. These sites contribute towards meeting the LHLR.

Deliverable housing pipeline

The expected sequencing of the Local Housing Land Requirement over the short (1-3 years), medium (4-6 years) and long-term (7-10 years), as set out in the Local Development Plan Delivery Programme.

Delivery Programme

A document which sets out how the Local Development Plan will be delivered.

Evidence Report

Supporting document to the Local Development Plan which summarises the evidence base for proposals and policies set out in the development plan.

Housing Land Audit (HLA)

Annual audit which monitors the delivery of housing land, including past completions and future programming.

Housing Needs and Demand Assessment (HNDA)

A tool used to estimate housing need and demand across various housing tenures to inform the development of the Local Housing Strategy and Local Development Plan.

Local Housing Market Area (LHMA)

A geographical area defined by household demand and preferences for all types of housing, reflecting the key functional linkages between places where people live and work.

Local Housing Strategy (LHS)

Strategy that sets out the outcomes that the Council and its partners want to achieve, and the action they will take, to address housing need and demand in their areas.

Local Development Plan (LDP)

A plan in which it is set out, for land in the part of the district to which it relates:

- a spatial strategy, being a detailed statement of the planning authority's policies and proposals as to the development and use of the land;
- such other matters as may be prescribed; and
- any other matter which the planning authority consider it appropriate to include.

Local Housing Land Requirement (LHLR)

The amount of land required for housing, as identified by the LDP. The LHLR is expected to exceed the 10-year Minimum All-Tenure Housing Land Requirement (MATHLR) set out in the National Planning Framework.

Minimum All-Tenure Housing Land Requirement (MATHLR)

The minimum amount of land, by reference to the number of housing units, that is to be provided by each planning authority in Scotland for a 10-year period, as set out in NPF4 Annex E. The MATHLR is expected to be exceeded in the LDP's LHLR.

National Planning Framework (NPF) 4

A long-term plan looking to 2045 that guides spatial development, sets out national planning policies, designates national developments and highlights regional spatial priorities.

The following definitions and classification in the schedules apply:

Site Ref	Area/Settlement or Parish/Residential/Sequential Reference Number.
Location	Address of Site.
Owner	Current owner of the site.
Developer	Agency responsible for the development and management of the site and not necessarily to the actual construction company.
Tenure	Five tenure types are specified:- HA - Housing Association for rent LA - Local Authority PRIV - Private MOD - Ministry of Defence Other - Other tenure, i.e. housing association shared ownership or low cost home ownership and joint venture between a local authority and a private developer.
Area	Site areas are quoted in hectares and represent the gross area of the site.
Units	The capacity of sites is expressed as a number of house units. For sites where no detailed housing layout has yet been prepared and no density has been specified, then an estimate has been made.
Serviced	Indicates the number of housing units which are serviced.
Not built	Total number of house units on the site which have not yet been built at the date of the update.
Effective	Currently effective (EFF) or constrained (CON)
LPR	Local Plan Site Reference

Land Use	<p>Categorises the main existing or former use of a site before it is re-zoned or developed. The land use categories used are:-</p> <p>AGR 1-7 Agricultural Land by Class (1, 2 & 3. 1 = prime)</p> <p>AG BLDG Agricultural Building</p> <p>WOOD Woodlands (may also be grazed)</p> <p>HORT Allotments and nurseries</p> <p>PRIV/PUB OS Privately or publicly owned open space (e.g. Grounds of a large house or hospital)</p> <p>RESID Residential</p> <p>COMM Commercial</p> <p>EDUC Educational</p> <p>RAIL Railway</p> <p>MOD Ministry of Defence</p> <p>PUB BLD Public Building</p> <p>UNUSED Derelict, Vacant, Backland etc.</p> <p>COMMTY Community</p> <p>IND Industry</p>
Greenfield/ Brownfield	Describes whether the site is within an urban area or previously developed (brownfield) or outwith the urban area and not previously developed (green field).

APPLICATION DETAILS

Applic Ref	Reference number of planning applications relating to the development of the site. Note where applications are made for individual plots within a site, these have been grouped together under the Application Reference 'Individs' with no decision date given.
Units	Number of units relating to each planning application.
Type	<p>Describes the type of permission application:-</p> <p>OUT Application for Outline Planning Permission</p> <p>DET Application for Full Permission or Permission of Reserved Matters</p>
Decision	Details of decision on the application. Apart from self explanatory terms – Approved, Refused, Withdrawn, Expired, Pending, it has been necessary to indicate the latest classified either as 'Superseded' or 'Duplicate'.
Dec. Date	Date of final decision on the application.

COMPLETION DETAILS

Built	Take up rates (in house units) for the previous 5 years are listed on an annual basis and assessments of subsequent completions are also listed annually for the next 5 years.
