Dear Mr Martin,

**Re: Additional Myreton Wind Turbines**

Following on from the original application for a single 900kW wind turbine at Myreton (Ref: 07/01102/FUL), we are now in a position to submit a second application for two additional 800kW wind turbines at Myreton, as discussed previously. Enclosed are the relevant documents including:

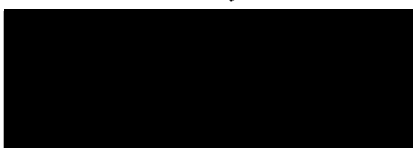

- 4 copies of the planning forms.
- 4 copies of the additional planning information document/environmental statement.
- 6 copies of the site layout at a 1:5000 scale.
- 4 copies of an ecological survey undertaken on the site.
- 1 cheque for the planning fee.

An Explanatory Note for Neighbour Notification has not been included with this application. This is because neither of the two proposed additional wind turbines are within 90m of "neighbouring land".

Wind monitoring is currently underway at the site. The results of this will determine whether the 900 or 800kW wind turbines will be more suitable for the site. Either way an amendment will need to be made to one of the planning applications to change all three turbines to the same model. The 800 and 900kW wind turbines have very similar dimensions so the change in visual impact of the scheme following this amendment will be negligible.

If you require any further information please do not hesitate to contact me either by phone or e mail at: [oliverpenney@serenenergy.co.uk](mailto:oliverpenney@serenenergy.co.uk)

Yours sincerely

  
Oliver Penney
