Previous Appl. No:

I enclose documents describing the above planning application and it would be helpful to have your observations **within 14 days**.

I would be obliged if you could indicate whether:

- (a) The Contaminated Land Team do not require any further information and the final consultation response sheet is attached.
- (b) An informative note with the attached information on the final consultation response should be included within any consent granted.
- (c) The condition indicated on the final consultation response should be included within any consent granted.

<b>HOLDING COMMENTS</b>	
(d) A contaminated land assessment has been requested and the application should not be approved nor submitted to committee for determination until the final consultation response has been received from the Contaminated Land Team.	<input type="checkbox"/>

If I do not hear from you **within 14 days** I will assume you have no comment to make.

**NOTE:** The statutory period allowed for a consultation response is 14 days. Due to scheduling pressures if a definitive response is not received within 21 days this may well cause the 8-week consideration period to be exceeded.

Yours faithfully

**Mr Alan Short**
