Dear Richard

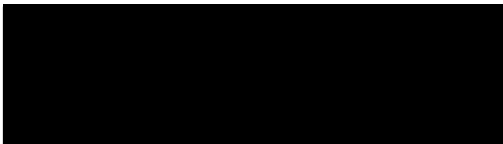

Planning Application Ref 09/00247/FUL
Install two 800kw wind turbines at Myreton Crossroads Keith

Thank you for the consultation on this application. It was discussed at the meeting of Strathisla CC on 1/7/09.

We have not had any representation from the community of Grange and we only have one member of the Grange community who attends our meetings. The feeling of the meeting is that we are concerned about the cumulative effect that all these applications will have, Balnamoon, Myreton and Windyhills. It was felt on this application we would make no further comment than that.

Thank you again for the consultation.

Yours sincerely

Rhona Patterson
Chairman Strathisla C.C.
