Request for
Review

Dear Mr Ritchie,

Thank you for your recent correspondence.

Our objection (sent 16th March 2011) to the construction of a turbine in this location is due to the adverse effect it may have on three adjacent radio links, operated by Scottish Hydro. Such links are used for supervision and control of the local Electricity Grid.

If the developer is able to re-position the turbine to increase the distance from the adjacent links, we will be pleased to re-assess the situation.

Best Regards,

Keith Brogden
