15 March 2012

Dear Sirs,

Your Ref: MLRB076/McK
My Ref: CTK/CK/10-60

Town and County Planning (Schemes of Delegation and Local Review Procedure) (Scotland) Regulations 2008 Request of Review: Planning Application 12/01696/APP Erect 2D KW Wind Turbine (13.1 Metre Rotor Diameter) and Installation of Underground Cables at Whinnyhaugh Farm, Burnside Road, Garmouth, Fochabers, Moray, IV32 7NY.

My objections to the proposed erection of the wind turbine are primarily as per my original submission. These can be summarised as follows:

- Concern regarding the close proximity of the site of the proposed wind turbine to the perimeter of my property. Surely there must be some regulations that prevent the construction of wind turbines so close to neighbouring properties. I estimate the distance to be approximately 200-250 metres.
- Concern regarding the noise nuisance because of the close proximity to the perimeter of my property.
- Concern regarding the negative impact of the wind turbine on the view from my property.

I note that the applicant claims in the notice of review that there was only one objection to the original submission. This is inaccurate because I am aware of at least 3 other objectors as well as myself.

I also note that one of the photographs included in the Notice of Review documentation seeks to portray a view to the south of the proposed site when in fact it is a view to the west overlooking the Binn Hill. This is a fundamental error and begs the question if there are other errors included in the Notice of Review.

Yours faithfully,

Graham H. Fudge
