Dear Mr Westmacott,

Concerning the application LR119..... were not actually against a house being built.....just that we cant have any large vehicles parked in front of our houses while its being built as it would make coming out of our drive more difficult and dangerous. Its not good at the moment, the road is very busy. My husband has to stand in the road to make sure there isnt any traffic coming as we cant see round the corner on the right towards Rothes. Cutting down trees wouldn't make any difference.....Taking photos of the road doesn't show the problem we have coming out of my drivecome and see for yourself.....

yours sincerely Ann Wardlaw
